Hardy Energy Consulting provides real-world strategic advice to utilities, their customers, and other groups and organizations affected by electricity restructuring.

MARKETING ALLIANCES

Developing regional and national marketing partnerships among publicly owned utilities, investor owned companies and power marketers

RETAIL COMPETITION

Designing company-specific plans to succeed in a full retail access environment

POWER SUPPLY

Providing advice on how to obtain low-cost power and transmission services from major West Coast suppliers

RESOURCE ANALYSIS

Analyzing the competitive benefits of acquiring/selling generating assets

POWER/TRANSMISSION PRICING

Forecasting future power prices and analyzing transmission pricing constraints

LEGISLATIVE/REGULATORY STRATEGY

Providing policy advice on national

and state electricity restructuring legislation and regulation, including evaluation of potential stranded costs

EDUCATIONAL SEMINARS

Conducting educational seminars to help utility boards and key management personnel identify emerging issues, constraints, and opportunities in the electricity field
